The Manchurian Candidate Richard Condon 2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." —Chicago Tribune "Condon is wickedly skillful." —Time

Silent Assassin Leo J. Maloney 2013-09-01 From a Black Ops veteran and author of Termination Orders, a military thriller featuring an unthinkable conspiracy from the deepest corridors of power. Silent Assassin Code named Cobra, former CIA agent Dan Morgan is pulled in when every other option has failed. His mission: find Nikolai Novokoff, a ruthless KGB officer turned international arms dealer. Locate the weapons of mass destruction that the rogue terrorist is threatening to unleash on the world. And terminate with extreme prejudice... In the world of clandestine ops, where the line between friends and enemies is constantly shifting, especially in the halls of Washington, Morgan must survive a merciless maze of deceit—and risk everything—to stop a madman. Hard Target Leo J. Maloney 2021-05-25 In this fast-paced, super-charged new thriller series from real-life Black Ops veteran Leo J. Maloney, Alex Morgan, daughter of legendary operative Dan Morgan, comes into her own as an agent to be reckoned with . . . HARD TARGET With reports of an imminent terrorist attack in Chicago during a speech by the Vice President, Zeta Division is on high alert. Working with the F.B.I. and the Secret Service, headquarters sends Alex Morgan to lead a tactical team. But when they barely escape the explosion of a large bomb, the danger only amps up, along with the death toll. Now a primary suspect, Alex gets a simple message from Zeta: RUN. It's just the beginning of a harrowing cross country journey in which Alex will race to stop an attack on the largest uranium storage facility in the U.S., even as she's chased by both police and terrorists. While Zeta and Dan Morgan himself work frantically to gather reinforcements, Alex finds help from unlikely sources—one much closer home and with far more complex, and personal motives than she can imagine. But only one thing is clear: this is a fight Alex can't win alone. Praise for Leo J. Game Feel Steve Swink 2008-10-13 "Game Feel" exposes "feel" as a hidden language in game

design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks where game design is concerned. They create the meta-sensation of involvement with a game. The understanding of how game designers create feel, and affect feel are only partially understood by most in the field and tends to be overlooked as a method or course of study, yet a game's feel is central to a game's success. This book brings the subject of feel to light by consolidating existing theories into a cohesive book. The book covers topics like the role of sound, ancillary indicators, the importance of metaphor, how people perceive things, and a brief history of feel in games. The associated web site contains a playset with ready-made tools to design feel in games, six key components to creating virtual sensation. There's a play palette too, so the designer can first experience the importance of that component by altering variables and feeling the results. The playset allows the reader to experience each of the sensations described in the book, and then allows them to apply them to their own projects. Creating game feel without having to program, essentially. The final version of the playset will have enough flexibility that the reader will be able to use it as a companion to the exercises in the book, working through each one to create the feel described.

Human Factors Considerations of Undergrounds in Insurgencies Us Army Special Operations Command 2017-08-31 From the preface: "The 1966 'Human Factors' edition focused on the contemporary threat of Maoist insurgencies, particularly in Southeast Asia, and also drew extensively on World War II resistance movements in Europe. Much of this information is still relevant and has been retained and integrated. In the post-Cold War world, the most important insurgencies tend to be ethnic and religious. Long-simmering conflicts, sometimes with roots in colonial policies, have become prominent; examples include the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, Euskadi Ta Askatasuna (Basque Homeland and Freedom or ETA) in Spain, the Hutu-Tutsi genocides, the Ushtia ◊lirimtare e Kosov◊s (Kosovo Liberation Army, or KLA), and the Provisional Irish Republican Army (PIRA). Battle lines in these conflicts are often drawn along ethnic lines, even when land or politics are the immediate issues in contention. The other important new category is extremist religious movements, most prominently Islamic groups, including regional insurgent movements like Hizbollah and Harakat al-Muqawamah al'Isla◊miyyah (Islamic Resistance Movement, or HAMAS) and global movements like Al Qaeda. These present a different profile of ideology, organizational forms, and psychology than either Cold War Maoists or post-colonial ethnic insurgencies (although the Palestinian cause could be considered a post-colonial issue). Globalization has also changed underground operations in numerous ways. Insurgencies, enabled by low-cost transportation, Internet based communications, and other information technologies, can more easily recruit, communicate, and operate across borders. It is correspondingly much more difficult to contain an insurgency in a region. Global media has led to development of new tactics, in particular new types of terrorism, designed to capture worldwide attention. Compared with what was available in the 1960s, there are orders of magnitude more academic research available relevant to this study's topics. We were able to draw on more recent work in psychology, political science, economics, sociology, organizational studies, and communications studies. Readers of this edition will, over the course of eleven chapters, get a wide exposure to basic concepts from a number of disciplines".

Termination Orders Leo Maloney 2011-01-01 Termination Orders is based on the author's missions in Black Ops. Hero Dan Morgan is simultaneously hunted by a double-crossing CIA and

Congress, vengeful foreign agents, a corporate drug ring, the Taliban, and narco-terrorists ... a you-are-there action thriller of torture, assassination, betrayals, and revenge, where nothing is as it seems.

Hitman: Enemy Within William C. Dietz 2007-08-28 The clone assassin has been played long enough—now it's more than a game. Bred to kill, Agent 47 is The Agency's most valuable assassin. So when a competing murder-for-hire organization decides to destroy The Agency, the first person they target for elimination is Agent 47. Tasking someone to off the best hitman in the business is one thing; getting the job done is another. When the attempt falls short, Agent 47 is ordered to track down and kill the culprit who is feeding vital information about The Agency to its enemies. Agent 47 must follow a bloody trail halfway around the world, fight his way through the streets of Fez, Morocco, and battle slavers deep inside Chad. Then he will discover a shattering truth: If he fails at his mission, the price he'll pay will be far greater than his own life. . . .

Liberty or Equality Erik von Kuehnelt-Leddihn 2007 Sometime in the 18th century, the word equality gained ground as a political ideal, but the idea was always vague. In this treatise, Erik von Kuehnelt-Leddihn argues that it reduced to one simple and very dangerous idea: equality of political power as embodied in democracy. He marshals the strongest possible case that democratic equality is the very basis not of liberty, as is commonly believed, but the total state. He uses national socialism as his prime example. He further argues the old notion of government by law is upheld in old monarchies, restrained by a noble elite. Aristocracy, not democracy, gave us liberty. On his side in this argument, he includes the whole of the old liberal tradition, and offers overwhelming evidence for his case. In our times, war and totalitarianism do indeed sail under the democratic flag. This book, capable of overturning most of what you thought you knew about political systems, was first published in 1952.

Threat Level Alpha Leo J. Maloney 2018-12-25 In this military thriller from a Black Ops veteran and author of *Deep Cover*, a secret government agent fights to stop biochemical terrorism. They strike without warning, in key locations around the world. In Russia, a Soviet-era storage facility is raided by terrorists. In the Philippines, an important international conference is under siege. In the United States, Dan Morgan is stalked by Russian agents. And at Berkeley, Morgan's daughter is kidnapped with other students and taken to a remote laboratory. The attacks are neither coincidental nor random. They are part of a carefully orchestrated plan by a new and merciless organization. As Zeta Division struggles to make sense of the international chaos, Dan Morgan races to stop a deadly biochemical weapon—one that Morgan's daughter is being forced to help build... Praise for Leo J. Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Covering the Body Barbie Zelizer 1992 Covering the Body (the title refers to the charge given journalists to follow a president) is a powerful reassessment of the media's role in shaping our collective memory of the assassination--at the same time as it used the assassination coverage to legitimize its own role as official interpreter of American reality. Of the more than fifty reporters covering Kennedy in Dallas, no one actually saw the assassination. And faced with a monumentally important story that was continuously breaking, most journalists had no time to verify leads or substantiate reports. Rather, they took discrete moments of their stories and turned them into one coherent narrative, blurring what was and was not "professional" about their coverage.

Marihuana E.L. Abel 2013-06-29 Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass--the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl Linnaeus, marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.

The Ten Greatest Revivals Ever Elmer L. Towns 2004-01-31 Over the centuries God has touched the earth with revival, lifting men and women into his presence in extraordinary ways. And in some epochs the divine hand seems to have rested on us longer and to have caused more profound changes in the church and the culture. Authors Towns and Porter have studied revival eras throughout history in order to identify the ten which seem to have been the greatest of all time. If you want to understand revival and if you long to see revival in our day, this book will speak to both your mind and your heart.

Storm Front Leo J. Maloney 2022-01-25 The second installment in acclaimed Black-Ops thriller author Leo J. Maloney's spin-off series featuring Alex Morgan, daughter of Zeta operative Dan Morgan. *STORM FRONT* Ares, an insidious challenger to the Zeta group, is sowing conflict around the world, orchestrating an explosive endgame. Identifying the next target as a cruise ship on the Coral Sea, Zeta sends undercover operatives Alex Morgan and Alicia Schmitt to avert catastrophe. Infiltrating the crew and passengers is easy for the skilled agents—but also for the fortified and highly trained extremists, who topple security and gain control of the ship. The attackers' demands: inconceivable. Their threats: immediate. As a massive storm bears down off the Australian coast, Alex and Alicia are outnumbered, outgunned, and out to sea. In full chaos mode, Alex shores up her last defenses, unaware that someone close to her could shift the odds in her favor—or against her. Ares has every advantage in this operation, but they have overlooked

one key thing. Never underestimate a Zeta agent . . . especially one whose last name is Morgan. Praise for Leo J. Men of Mark William J. Simmons 1887 TO PRESUME to multiply books in this day of excellent writers and learned book-makers is a rash thing perhaps for a novice. It may even be a presumption that shall be met by the production itself being driven from the market by the keen, searching criticism of not only the reviewers, but less noted objectors. And yet there are books that meet a ready sale because they seem like "Ishmaelites"--against everybody and everybody against them. Whether this work shall ever accomplish the design of the author may not at all be determined by its sale. While I hope to secure some pecuniary gain that I may accompany it with a companion illustrating what our women have done, yet by no means do I send it forth with the sordid idea of gain. I would rather it would do some good than make a single dollar, and I echo the wish of "Abou Ben Adhem," in that sweet poem of that name, written by Leigh Hunt. The angel was writing at the table, in his vision. The names of those who love the Lord. Abou wanted to know if his was there--and the angel said "No." Said Abou, I pray thee, then, write me as one that loves his fellow-men. That is what I ask to be recorded of me. The angel wrote and vanished. The next night It came again, with a great awakening light. And showed the names whom love of God had blessed. And lo! Ben Adhem's name led all the rest. I desire that the book shall be a help to students, male and female, in the way of information concerning our great names. I have noticed in my long experience as a teacher, that many of my students were woefully ignorant of the work of our great colored men--even ignorant of their names. If they knew their names, it was some indefinable something they had done--just what, they could not tell. If in a slight degree I shall here furnish the data for that class of rising men and women, I shall feel much pleased. Herein will be found many who had severe trials in making their way through schools of different grades. It is a suitable book, it is hoped, to be put into the hands of intelligent, aspiring young people everywhere, that they might see the means and manners of men's elevation, and by this be led to undertake the task of going through high schools and colleges. If the persons herein mentioned could rise to the exalted stations which they have and do now hold, what is there to prevent any young man or woman from achieving greatness? Many, yea, nearly all these came from the loins of slave fathers, and were the babes of women in bondage, and themselves felt the leaden hand of slavery on their own bodies; but whether slaves or not, they suffered with their brethren because of color. That "sum of human villainies" did not crush out the life and manhood of the race. I wish the book to show to the world--to our oppressors and even our friends--that the Negro race is still alive, and must possess more intellectual vigor than any other section of the human family, or else how could they be crushed as slaves in all these years since 1620, and yet to-day stand side by side with the best blood in America, in white institutions, grappling with abstruse problems in Euclid and difficult classics, and master them? Was ever such a thing seen in another people? Whence these lawyers, doctors, authors, editors, divines, lecturers, linguists, scientists, college presidents and such, in one quarter of a century?

Strategic Latency Unleashed Zachary Davis 2021-01-30 The world is being transformed physically and politically. Technology is the handmaiden of much of this change. But since the current sweep of global change is transforming the face of warfare, Special Operations Forces (SOF) must adapt to these circumstances. Fortunately, adaptation is in the SOF DNA. This book examines the changes affecting SOF and offers possible solutions to the complexities that are challenging many long-held assumptions. The chapters explore what has changed, what stays the same, and what it all means for U.S. SOF. The authors are a mix of leading experts in technology, business, policy, intelligence, and geopolitics, partnered with experienced special operators who either cowrote the chapters or reviewed them to ensure accuracy and relevance for SOF. Our goal is to provide insights into the changes around us and generate ideas about how SOF can adapt

and succeed in the emerging operational environment.

Ghostman Roger Hobbs 2013-02-12 Stunningly dark, hugely intelligent and thoroughly addictive, Ghostman announces the arrival of an exciting and highly distinctive novelist. When a casino robbery in Atlantic City goes horribly awry, the man who orchestrated it is obliged to call in a favor from someone who's occasionally called Jack. While it's doubtful that anyone knows his actual name or anything at all about his true identity, or even if he's still alive, he's in his mid-thirties and lives completely off the grid, a criminal's criminal who does entirely as he pleases and is almost impossible to get in touch with. But within hours a private jet is flying this exceptionally experienced fixer and cleaner-upper from Seattle to New Jersey and right into a spectacular mess: one heister dead in the parking lot, another winged but on the run, the shooter a complete mystery, the \$1.2 million in freshly printed bills god knows where and the FBI already waiting for Jack at the airport, to be joined shortly by other extremely interested and elusive parties. He has only forty-eight hours until the twice-stolen cash literally explodes, taking with it the wider, byzantine ambitions behind the theft. To contend with all this will require every gram of his skill, ingenuity and self-protective instincts, especially when offense and defense soon become meaningless terms. And as he maneuvers these exceedingly slippery slopes, he relives the botched bank robbery in Kuala Lumpur five years earlier that has now landed him this unwanted new assignment. From its riveting opening pages, Ghostman effortlessly pulls the reader into Jack's refined and peculiar world—and the sophisticated shadowboxing grows ever more intense as he moves, hour by hour, toward a constantly reimprovised solution. With a quicksilver plot, gripping prose and masterly expertise, Roger Hobbs has given us a novel that will immediately place him in the company of our most esteemed crime writers. Exclusively for the eBook: *Autobiography of a Ghostman*.

Angle of Attack Leo J. Maloney 2021-01-26 Real-life Black Ops veteran Leo J. Maloney launches an electrifying new series featuring Alex Morgan, daughter of legendary operative Dan Morgan and a formidable force in her own right. ANGLE OF ATTACK Alex Morgan's new mission for Zeta plunges her into a web of danger threatening Europe's glamorous Formula One racing circuit. It quickly escalates into a race against time to track down a missing supply of weapons-grade plutonium headed for North America. From a secret prison in Iran to the glittering casinos of Monaco, to the jungles of Malaysia, and to the dark side of Montreal, Alex is up against a deadly and far-reaching conspiracy. Each step of the way, she's dogged by a shadowy figure determined to destroy her. Alex has the grit to deal with any external threat, but this is a new kind of peril from a source shockingly close to home—one that will make Alex question everything she once believed... Behold a Pale Horse William Cooper 2012-04-11 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing

Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Bloodlines of the Illuminati: Fritz Springmeier 2019-03-04 The iLLamanati have emerged from hidden places of the Earth to shed light on the dark side of human endeavors by collating and publishing literature on the secrets of the Illuminati. Representing the Grand Llama, an omniscient, extradimensional light being who is channeled by our Vice-Admiral, Captain Space Kitten, the iLLamanati is organized around a cast of interstellar characters who have arrived on Earth to wage a battle for the light. Bloodlines of the Illuminati was written by Fritz Springmeier. He wrote and self-published it as a public domain .pdf in 1995. This seminal book has been republished as a three-volume set by the iLLamanati. Volume 1 has the first eight of the 13 Top Illuminati bloodlines: Astor, Bundy, Collins, DuPont, Freeman, Kennedy, Li, and Onassis. Volume 2 has the remaining five of the 13 Top Illuminati bloodlines: Rockefeller, Rothschild, Russell, Van Duyn, and Merovingian. Volume 3 has four other prominent Illuminati bloodlines: Disney, Reynolds, McDonald, and Krupps.
